Attention: Raymond S.

Subject: Control No. 02228 Instruction
Manuals and Electrical Schematics

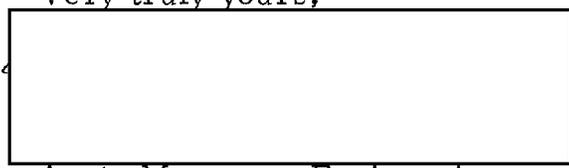

Gentlemen:

We are enclosing two (2) sets of electrical schematics for the joystick control and velocity servo amplifier used with the Twin Stage Comparator. Also included are two (2) photographic sets of figures to replace the Xerox copies originally supplied as part of the Comparator instruction manual. This material was not available in time to ship with the Twin Stage Comparator system. It is now being supplied to complete the shipment of instruction manuals and electrical schematics as required by this contract.

Thank you for your cooperation in this matter.
